Design Systems · Component Architecture · Accessibility · Layout

Tools

Git · GitHub · Vite · Figma · Adobe CC · Jira

LANGUAGES

English (Professional) · Estonian (Native)

ABOUT ME

I design and develop UI systems from the ground up, combining strong visual design with clean, efficient code to create intuitive user experiences. My work includes design systems, reusable components, and product interfaces for complex web applications.

EXPERIENCE

ERPLY Development OÜ Frontend Developer - UX/UI

2023 – Present

- Designed and developed a modular UI library and design system used across ERPLY retail applications.
- Developed reusable frontend components including navigation, modals, alerts, and date pickers using HTML, CSS, vanilla JavaScript, and Go templates.
- Implemented a unified responsive navigation framework functioning as both sidebar and top navigation, enabling reuse across multiple ERPLY platform applications.
- Conducted UI reviews across product teams to improve consistency, accessibility, and alignment with the shared design system.
- Worked on an Email Marketing application, developing features including AI-assisted email template editors, automation tools, campaign management, and email tracking.
Product: marketing.voog.com
- Contributed to the development of a customer information and billing system for Elektrilevi, improving usability and supporting modernized customer management workflows.

Typesetter OÜ Creative / Project Manager

2019 – 2023

- Curated visual concepts for different marketing projects.
- Created illustrations and 3D product mockups using Adobe Dimension.
- Front-end development, WordPress, and PHP.

Health RCM Certified Medical Coder (AAPC CPC, CRC), Compliance Team Lead

2013 – 2023

- Worked with healthcare software platforms including Mdländ iClinic® and eClinicalWorks, managing complex medical coding workflows.
- Contributed to testing and improving internal software tools, helping identify usability issues and workflow inefficiencies.

- Led a compliance and quality assurance team, conducting audits and maintaining coding accuracy according to healthcare regulations.
